FREEDMEN'S BUREAU PRESERVATION PROJECT**

This National Archives microfilm publication is part of a multiyear project to microfilm the field office records of the Bureau of Refugees, Freedmen, and Abandoned Lands (Freedmen's Bureau). The project was made possible by the United States Congress through The Freedmen's Bureau Records Preservation Act of 2000 (Public Law 106-444). When completed, all of the field records for the States of Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Missouri, North Carolina, South Carolina, Tennessee, Texas, Virginia, and for the District of Columbia will be available on microfilm. For microfilm availability and description, view both the microfilm catalog *Black Studies: A Select Catalog of National Archives Microfilm Publications* and the National Archives microfilm locator on our web site at www.archives.gov.

INTRODUCTION

On the 111 rolls of this microfilm publication, M1905, are reproduced the records of the staff officers of the Assistant Commissioner and the subordinate field offices of the Louisiana headquarters of the Bureau of Refugees, Freedmen, and Abandoned Lands, 1863-1872. These records consist of bound volumes and unbound records containing materials that include letters sent and received, monthly reports, registers of complaints, labor contracts, and other records relating to freedmen's claims and bounty payments. These records are part of the Records of the Bureau of Refugees, Freedmen, and Abandoned Lands, Record Group (RG) 105.

HISTORY AND ORGANIZATION

The Bureau of Refugees, Freedmen, and Abandoned Lands, also known as the Freedmen's Bureau, was established in the War Department by an act of Congress on March 3, 1865 (13 Stat. 507). The life of the Bureau was extended twice by acts of July 16, 1866 (14 Stat. 173), and July 6, 1868 (15 Stat. 83). The Bureau was responsible for the supervision and management of all matters relating to refugees and freedmen, and of lands abandoned or seized during the Civil War. In May 1865, President Andrew Johnson appointed Maj. Gen. Oliver Otis Howard as Commissioner of the Bureau, and Howard served in that position until June 30, 1872, when activities of the Bureau were terminated in accordance with an act of June 10, 1872 (17 Stat. 366). While a major part of the Bureau's early activities involved the supervision of abandoned and confiscated property, its mission was to provide relief and help freedmen become self-sufficient. Bureau officials issued rations and clothing, operated hospitals and refugee camps, and supervised labor contracts. In addition, the Bureau managed apprenticeship disputes and complaints, assisted benevolent societies in the establishment of schools, helped freedmen in legalizing marriages entered into during slavery, and provided transportation to refugees and freedmen who were attempting to reunite with their family or relocate to other parts of the country. The Bureau also helped black soldiers, sailors, and their heirs collect bounty claims, pensions, and back pay.

The act of March 3, 1865, authorized the appointment of Assistant Commissioners to aid the Commissioner in supervising the work of the Bureau in the former Confederate states, the border states, and the District of Columbia. While the work performed by Assistant Commissioners in each state was similar, the organizational structure of staff officers varied from state to state. At various times, the staff could consist of a superintendent of education, an assistant adjutant general, an assistant inspector general, a disbursing officer, a chief medical officer, a chief quartermaster, and a commissary of subsistence. Subordinate to these officers were the assistant superintendents, or subassistant commissioners as they later became known, who commanded the subdistricts.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION
MICROFILM PUBLICATIONS

The Assistant Commissioner corresponded extensively with both his superior in the Washington Bureau headquarters and his subordinate officers in the subdistricts. Based upon reports submitted to him by the subassistant commissioners and other subordinate staff officers, he prepared reports that he sent to the Commissioner concerning Bureau activities in areas under his jurisdiction. The Assistant Commissioner also received letters from freedmen, local white citizens, state officials, and other non-Bureau personnel. These letters varied in nature from complaints to applications for jobs in the Bureau. Because the assistant adjutant general handled much of the mail for the Assistant Commissioner's office, it was often addressed to him instead of to the Assistant Commissioner.

In a circular issued by Commissioner Howard in July 1865, the Assistant Commissioners were instructed to designate one officer in each state to serve as "general Superintendents of Schools." These officials were to "take cognizance of all that is being done to educate refugees and freedmen, secure proper protection to schools and teachers, promote method and efficiency, correspond with the benevolent agencies which are supplying his field, and aid the Assistant Commissioner in making his required reports." In October 1865, a degree of centralized control was established over Bureau educational activities in the states when Rev. John W. Alvord was appointed Inspector of Finances and Schools. In January 1867, Alvord was divested of his financial responsibilities, and he was appointed General Superintendent of Education.

An act of Congress, approved July 25, 1868 (15 Stat. 193), ordered that the Commissioner of the Bureau "shall, on the first day of January next, cause the said bureau to be withdrawn from the several States within which said bureau has acted and its operation shall be discontinued." Consequently, in early 1869, with the exception of the superintendents of education and the claims agents, the Assistant Commissioners and their subordinate officers were withdrawn from the states.

For the next year and a half the Bureau continued to pursue its education work and to process claims. In the summer of 1870, the superintendents of education were withdrawn from the states, and the headquarters staff was greatly reduced. From that time until the Bureau was abolished by an act of Congress approved June 10, 1872 (17 Stat. 366), effective June 30, 1872, the Bureau's functions related almost exclusively to the disposition of claims. The Bureau's records and remaining functions were then transferred to the Freedmen's Branch in the office of the Adjutant General. The records of this branch are among the Bureau's files.

THE FREEDMEN'S BUREAU IN LOUISIANA

ORGANIZATION

On June 13, 1865, Commissioner Oliver Otis Howard appointed Chaplain Thomas W. Conway as the Assistant Commissioner for Louisiana. At the time of his appointment, Conway headed the military's Louisiana Bureau of Free Labor, which

managed the affairs of freedmen employed on "abandoned" plantations. Conway transferred the Bureau of Free Labor to the newly established Freedmen's Bureau Louisiana headquarters at New Orleans. The parishes of Madison, Carroll, Concordia, and Tenasas in northeastern Louisiana were reassigned in January 1866 from the jurisdiction of the Assistant Commissioner for Mississippi to that of the Assistant Commissioner for Louisiana. The other Assistant Commissioners or Acting Assistant Commissioners in Louisiana and their terms of office were Gen. James S. Fullerton, October 4-18, 1865; Gen. Absalom Baird, October 19, 1865-September 1866; Gen. Philip H. Sheridan, October 5-November 27, 1866; Gen. Joseph A. Mower, November 28, 1866-December 4, 1867; Lt. Col. William H. Wood, December 5, 1867-January 2, 1868; Gen. R. C. Buchanan, January 3-August 24, 1868; and Gen. Edward Hatch, August 25, 1868-January 1, 1869.

When Conway took over as Assistant Commissioner, the state was divided into districts that were composed of one to three parishes and commanded by either an agent or superintendent. In April 1867, the state was reorganized into seven subdistricts headed by subassistant commissioners. Subassistant commissioners were required to file monthly inspection reports of their respective jurisdictions with the Assistant Commissioner. Agents or assistant subassistant commissioners, who were responsible for one to two parishes, received their instructions from and reported to subassistant commissioners. The major subordinate field offices for the Bureau in Louisiana included those with headquarters at Baton Rouge, Franklin, Monroe, Natchitoches, New Orleans, Shreveport, and Vidalia. For a list of known Louisiana subordinate field office personnel and their dates of service, see the appendix.

ACTIVITIES

The major activities of the Freedmen's Bureau field office in Louisiana generally resembled those conducted in other states. The Bureau provided various forms of relief to both freedmen and white refugees, supervised labor contracts, assisted freedmen in the establishment of schools, administered justice, helped freedmen locate land, and assisted blacks with military claims for back pay, bounty payments, and pensions.

Between June and September 1865, the Bureau in Louisiana issued some 455,290 rations to destitute freedmen and 157,691 to white refugees. With no appropriated funds from Congress, the Bureau relied on several sources to carry out these activities: income from confiscated property, requisitioned supplies from the army, aid from benevolent societies, and a three-dollar tax on black adult laborers. Despite the Bureau's efforts, however, tens of thousands of freedmen and refugees remained in dire straits throughout the state. The lack of available funds, continuous flooding, crop failures, and disease severely hampered the Bureau's relief programs. On March 30, 1867, Congress appropriated monies for a "special relief fund" (15 Stat. 28). The fund authorized the Secretary of War, through the Freedmen's Bureau, to issue provisions and rations to destitute persons in Southern states, including Louisiana.

In response to the act, Commissioner Howard issued a circular on April 3, 1867 (Circular Number 11), that set aside \$500,000 for the purpose.¹

The agency maintained homes for refugees and orphans. Hundreds of refugees were housed in two hotels in New Orleans (the Commercial and the Western Verandah) and later the Marine Hospital. While most of the residents were from Louisiana, some were from Texas, Florida, Kentucky, Mississippi, Alabama, and Tennessee. Beginning in 1865, the Bureau provided assistance to several privately run orphan asylums in New Orleans and other areas of the state until its work for orphans was discontinued in September 1865. The Bureau also provided medical aid to freedmen and white refugees. In 1866, to help combat such diseases as cholera, yellow fever, and smallpox, seven doctors, on average, served under the Bureau in Louisiana: five at the New Orleans hospital and one at both the Shreveport hospital and the Rost Home Colony. The Bureau also maintained numerous dispensaries throughout the state. In spite of the closure of the Rost Home Colony hospital and most of the Bureau's dispensaries by the end of 1867, the agency in 1868 treated more than 8,500 freedmen for various infectious diseases. At the Rost Home Colony—one of the most successful of the four "home colonies" established in Louisiana—Bureau officials also issued rations and clothing, established a school, provided employment, and compiled a variety of personal data about individuals who arrived and departed from the Colony. Both the New Orleans and the Shreveport hospitals maintained registers of patients and the sick and wounded.²

The regulation of written labor agreements between planters and freedmen was a major concern of the Freedmen's Bureau. In a circular issued on December 4, 1865 (Circular Number 29), Bureau officials in Louisiana outlined the rules governing the free labor system in the state. Freedmen could choose their employers, and all contracts were to be approved by a Bureau agent. Wages were not set, but the circular declared that it was the freedmen's "duty" to "obtain the best terms they can for their labor." Freedmen were required to work 26 days per month, consisting of 10-hour days in the summer and 9-hour days in the winter. Any work time exceeding 6 hours beyond the normal workday would constitute an additional day's work. In addition to wages, freedmen were also entitled to receive rations, clothing, "comfortable" living quarters, and medical attention, and each family was to receive a half-acre plot to maintain a garden. Five percent of the freedman's monthly wages was to be retained by the employer for the purpose of sustaining schools for the freedman's children. In cases where freedmen desired to work for a share of the crop, employers were required to have sufficient amounts of provisions available for

freedmen and their families each month. Also, employers who entered into share agreements were obligated to pay Bureau agents 1/20 of the amount of the freedmen's share of the crop each month for the benefit of freedmen schools.³

In the two years following the April 1862 occupation of New Orleans by Union troops, various civilian and military organizations established schools to educate freedmen in Louisiana. Gen. Nathaniel Banks's order of March 22, 1864 (Department of the Gulf General Order 38), established a board of education to govern the organization of freedmen's schools. B. Rush Plumly was appointed head of the board, and Lt. Edwin M. Wheelock became supervisor. Schools under the board's jurisdiction were supported mainly by a tax on citizens recently disloyal to the Union. On June 29, 1865, Assistant Commissioner Conway took charge of the schools, and on July 5, 1865, replaced Plumly and Wheelock with Capt. H. R. Pease as superintendent of education. Pease's successors included Bvt. Maj. A. G. Studer, Lt. F. R. Chase, J. M. Lee, L. O. Parker, H. H. Pierce, and E. W. Mason.

Pease divided the state into seven school districts, placing military and civilian personnel in charge. Under these officers were school directors responsible for each parish and "canvassers" who collected the school tax for each district. At the time of his arrival, there were some 126 freedmen schools, with 230 teachers and approximately 19,000 students. However, with limited funds and intense opposition to the school tax, Circular Number 34, dated December 27, 1865, directed that all schools be "suspended until such time as it may be found practicable to re-establish them on a permanent and self-supporting basis."⁴

In February 1866, then-Assistant Commissioner Baird sought to make schools self-supporting through a tuition plan. Despite Baird's new plan and congressional appropriations of 1866 and 1867 for freedmen education in the South, the Freedmen's Bureau's educational programs in Louisiana continued to face financial difficulties. In June 1868, Congress authorized the Bureau to sell school buildings to private groups that were willing to maintain freedmen schools, and the Bureau entered into cooperative agreements with such groups as the American Missionary Society, the Methodist Freedmen's Aid Society, and the Free Mission Baptists. Under the agreements, the Bureau provided monies for construction of the school buildings, and the religious organizations maintained the schools. In 1870, the cooperation between the Bureau and religious groups led to significant progress in the establishment of numerous freedmen schools in Louisiana. Despite their efforts however, freedmen schools continued to suffer from the effects of limited resources, lack of competent teachers, and a segregated school system.⁵

Safeguarding rights and securing justice for freedmen was of paramount concern to the Freedmen's Bureau. Following the Civil War, several Southern states enacted a series of laws, commonly known as "black codes," that restricted the rights and legal status of freedmen. Freedmen were often given harsh sentences for petty crimes, and in some instances were unable to get their cases heard in state courts. Assistant Commissioners were directed to "adjudicate, either themselves or through officers of their appointment, all difficulties arising between negroes themselves, or between negroes and whites or Indians."⁶ Assistant Commissioner Conway issued Circular Number 15 (September 15, 1865), authorizing his subordinates to establish freedmen courts in cases where freedmen were not receiving just treatment. Conway's successors—Fullerton, Baird, and Sheridan—believed that civil officers in most parishes administered justice impartially in freedmen cases, and so abolished the special tribunals as unnecessary. Nevertheless, Bureau officers were still required to represent freedmen in court cases and refer the most extreme cases of injustice to United States courts. In the latter part of 1866, fearing that freedmen's rights were not being adequately protected, Assistant Commissioner Joseph Mower re-instituted some Bureau judicial functions that had been previously suspended by his predecessors. William H. Wood, who succeeded Mower, told Bureau agents during his tenure that only in cases where the evidence clearly showed the civil court's failure to administer justice, were they to become involved. Wood's replacement, Gen. Robert C. Buchanan, like Fullerton, Baird, and Sheridan, continued the policy of leaving matters of justice to civil authorities. By the time Gen. Edward Hatch assumed office as Assistant Commissioner in 1868, Louisiana had restored its constitutional relations with the Federal Government, and matters concerning justice were returned to the state.⁷

The Southern Homestead Act (14 Stat. 66), approved by Congress on June 21, 1866, made available for public settlement 46 million acres of public lands in Alabama, Arkansas, Florida, Louisiana, and Mississippi. Six million acres of this Federal land was located in Louisiana. The act specifically prohibited discrimination against applicants due to race, and thus offered Louisiana freedmen and others an opportunity to become landowners. Only persons who headed households or were former United States soldiers were eligible to apply. A five-dollar application fee was required of all applicants, which allowed them to settle on an 80-acre tract and gain permanent possession after five years of cultivation. Generally, the Freedmen's Bureau, through "locating agents," assisted interested freedmen in finding plots, and provided them with one-month subsistence, free transportation to their prospective tracts of land, and seeds for initial planting. By January 1867, J. J. Saville, as locating agent, found homesteads for 87 freedmen, 73 whites, and 14 soldiers. However, because the New Orleans land office was closed, only 7 were able to file applications. While limited resources and the lack of suitable lands for settlement hindered freedmen in their effort to acquire land, freedmen also faced intense opposition from whites who opposed black land ownership. Freedmen were thus

encouraged by Bureau officials in Louisiana to settle on land in large numbers in order to protect themselves from intense opposition by whites.⁸

An act of Congress on June 14, 1864, authorized the payment of bounties, not to exceed \$100, to black soldiers who had entered the military after June 15, 1864, and who were free on April 19, 1861 (14 Stat. 126). Amendments in 1866 dropped the requirement of freedom at enlistment and offered additional bounties of \$100 for those blacks who had signed on for three years, and \$50 for individuals who enlisted for two years. To assist black soldiers and their heirs in filing bounty and other military claims against the Federal Government, a claims agency was initially established in the United States Sanitary Commission. On July 14, 1865, Commissioner Howard authorized Freedmen's Bureau officials to act as agents of the Commission and to assist it in filing for black military claims. However, freedmen often rejected the free services of the agency and paid fees to private claims agents, believing that they would receive their money quicker. In 1867, concerned about abuse and fraud in the settlement of black military claims, Congress passed a law making the Freedmen's Bureau the sole agent for payment of claims of black veterans (15 Stat. 26). From October 31, 1866, through September 30, 1867, the Bureau in Louisiana settled claims amounting to just \$1,489.73. However, one year later, 240 veterans' claims amounting to \$52,058 were settled, with 484 remaining to be resolved.⁹

RECORDS DESCRIPTION

These records consist of volumes and unbound records. The volumes reproduced in this microfilm publication were originally arranged by type of record and thereunder by volume number. All volumes were assigned numbers by the Adjutant General's Office (AGO) of the War Department after the records came into its custody. In this microfilm publication, AGO numbers are shown in parentheses to aid in identifying the volumes. The National Archives assigned the volume numbers that are not in parentheses. No numbers were assigned to series consisting of single volumes. In some volumes, particularly in indexes and alphabetical headings of registers, there are blank numbered pages that have not been filmed.

The volumes consist of letters and endorsements sent and received, press copies of letters sent, registers of letters received, letters and orders received, registers of freedmen court cases, special orders and circulars issued, registers of claimants, registers of complaints, marriage certificates, and monthly reports forwarded to the Assistant Commissioner. The unbound documents consist of letters and orders

received, unregistered letters and narrative reports received, special orders and circulars issued, and general orders and circulars received. The unbound records also contain monthly reports, labor contracts, marriage certificates, and records relating to claims.

Some of the volumes contain more than one type of record, reflecting a common recording practice of clerks and staff officers of that period. On roll 67, for example, the volume of applications for laborers for Bragg Home Colony also contains a register of complaints. Some other examples of additional series within volumes can be found in records on rolls 72, 78, and others. Researchers should read carefully the records descriptions and arrangements in the table of contents to make full use of these documents.

RELATED RECORDS

In the same record group, RG 105, and related to records of the Bureau's field offices for Louisiana, are those of the Bureau headquarters in Washington, DC, and previously microfilmed records of the Assistant Commissioner and the superintendent of education for Louisiana. Records in other National Archives record groups supplement those of the Assistant Commissioner. In Records of United States Army Continental Commands, 1821-1920, RG 393, are records of the military district that included Louisiana. Records relating to employment and welfare of freedmen and abandoned property before the establishment of the Bureau are among Records of Civil War Special Agencies of the Treasury Department, RG 366. The records of the Freedman's Savings and Trust Company, 1865-1874, in Records of the Office of the Comptroller of the Currency, RG 101, contain information relating to former slaves who maintained accounts with bank branches in Louisiana.

1 LIST OF BOOK RECORDS OF OFFICERS

State of Louisiana

The single-volume list of records of officers in Louisiana (no date) is arranged by office, with records of the staff officers of the Assistant Commissioner first, followed alphabetically by locations of the subdistrict office. Included in the list of book records are the type of record in each book or volume, the dates of the volume, and the volume number. Throughout this introductory material and in the Table of Contents, the Adjutant General's Office (AGO) volume number appears in parentheses in the series titles of the records.¹⁰

Registers of Claims Received

The three volumes of registers of claims received, April 1866–April 1870, 1 (60), 2 (61), and 3 (62), are arranged in two overlapping subseries and thereunder chronologically, and there are name indexes for volumes 1 (60) and 3 (62). Volume 1 (60) also contains a **register of discharges** received from agents (December 1866–March 1867) and a **register of certificates** received from Washington (June 1866–April 1868).

Volume 1 (60)	Apr. 1866–Mar. 1867
Volume 2 (61)	Jan. 1867–June 1868
Volume 3 (62)	Apr. 1866–Apr. 1870

Registers of Claimants

The two volumes of registers of claimants, May 1867–March 1872, (1) 67 and 2 (68), are arranged by time period. The entries are arranged alphabetically by initial letter of surname of claimant. The entries give the name, regiment, and company of claimant; number of certificate; name and fees of attorney; and amount of claim.

Weekly and Monthly Reports of Sick and Wounded
Aug. 1864-June 1867

REPORT
OF
SICK AND WOUNDED.

Station Freedmen Camp Birney Plantation La.

Month August 1864

FORWARDED BY

Surgeon.

COMMAND.

Here specify legibly the name of the Regiment and the letters of the Companies comprising the Command, with the Brigade, Division, and Army or Department in which it is serving.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

I.—TAKEN ON SICK REPORT DURING THE MONTH.

- I. In making out this part of the report, the number of cases of each disease which may have occurred during the month is to be entered in ordinary numerals opposite the name of the disease. This entry will always be made in the column headed "All other Cases," except when patients are received by transfer from some general hospital in which their treatment has commenced, and in which it is to be presumed they have been already reported. In this case, the number of each disease so received by transfer will be entered in the column headed "Cases from other Hospitals."
- II. In making out the tabular list, those cases only are to be entered which have been taken sick or received into the hospital during the month represented by the report. Cases remaining from previous months ARE NOT to be entered in the tabular list. ALL deaths occurring during the month are, however, to be entered in the column of deaths, whether the patient was received during the current month or previously.
- III. Patients returning from furlough or desertion are not to be entered as new cases in the tabular list of diseases, but the number thus returned is to be entered in the summary under the head of "Returned from furlough or desertion." Patients absent on furlough are not to be included in the number reported as remaining.
- IV. The individual diseases specified in the tabular list are merely those which experience has proved to be most frequent. Cases of any other diseases which may occur are to be entered under the head of "Other diseases," in the class and order to which they belong.
- V. Whenever cases are entered opposite any of the headings printed in italics, the precise nature of the affection so reported must be set forth in detail in the remarks on the third page of the report.

II.—GENERAL SUMMARY.

- I. In the General Summary, the TOTAL under the head "Taken sick or wounded during the month" must agree with the total number of cases of all kinds entered in the "Tabular list of diseases;" this total added to the "Total remaining last report," and the number "Returned from furlough and desertion," produces the aggregate, and must, of course, equal it.
- II. The number entered in the summary, under "Died," must equal the number specified by name in the subsequent part of the report and the total "Deaths" in the tabular list; excepting only in the case of those KILLED IN BATTLE, who are to be entered, when positively ascertained, in the list of deaths by name, but not in the tabular list or general summary.
- III. The number entered in the summary, under "Transferred to the Invalid Corps," must be equal to the number specified by name in the list of transfers; and the number entered as "Discharged" must equal the number entered in the list of discharges.
- IV. The sum of the numbers entered under the several heads, "Returned to duty," "Sent to general hospital," "Furloughed," "Transferred to Invalid Corps," "Discharged," "Deserted," and "Died," added to the total "Remaining," must equal the "Aggregate."
- V. The next division of the summary is intended to show the comparative amount of sickness among commissioned officers and enlisted men. Under this head, only the number taken sick during the month is to be entered, and not the "Aggregate." The sum of the cases and deaths reported under these heads must equal the total number of cases and deaths in the tabular list.
- VI. The "mean strength of the command" is to be obtained as follows: The strength present on each day of the month, obtained from the consolidated morning report of the command, is to be added together and divided by the number of days in the month. This is to be done for officers and enlisted men separately, and the two results added together for the total. The nearest whole numbers are to be used, and not fractions or decimals. The column headed "Mean strength of command" will not be filled up in case of general hospitals.
- VII. The average number on sick report, daily, will be obtained from the morning reports, by adding together in two separate columns the number remaining each day in hospital and in quarters, and dividing each total by the number of days in the month. This part of the summary is only intended for troops, and not for general hospitals.

III.—LIST OF SOLDIERS TRANSFERRED TO THE INVALID CORPS, DISCHARGED ON SURGEON'S CERTIFICATES, AND DIED.

- I. The greatest care and accuracy should be used in making out this list and in stating the degree of disability, as the pension of disabled soldiers, or of the families of the dead, often depends on the records thus furnished. The correct spelling of names is of the utmost importance.

NOTE.—Attention is called to the following Circular:

CIRCULAR No. 4.

SURGEON GENERAL'S OFFICE,
WASHINGTON, D. C., February 19, 1864.

- I. Separate reports of sick and wounded rebel prisoners of war, treated in U. S. General or Post Hospitals, will be made monthly to this office.
- II. Whenever white and colored troops are treated in the same hospital (either General or Post) separate reports of sick and wounded will be made, in order that the sickness and mortality rates of each race can be correctly ascertained.
- III. Monthly Sick Reports from regiments or detachments of colored troops will present on the first page of the report the number of sick of enlisted men only; the names, rank, and diseases of sick officers of these regiments will be placed under the head of Remarks.

JOS. K. BARNES, Acting Surgeon General.

DIRECTIONS.—Here specify the details with regard to entries made, opposite headings specified in italics, as required in the Discharge Book. Give either on this sheet or in an accompanying letter of transmittal. *Fevers*.—State character and location and sanitary condition of camp or quarters during the prevalence of these diseases. *Respiratory Diseases*.—Chronic and symptoms with observations on the character of the cough, and the mode of coughing. *Spontaneous Diseases*.—Chronic and symptoms with observations on the character of the cough, and the mode of coughing. *Important cases of every kind should be reported in full.* Where post-mortem examinations have been made, state the results.

I certify that the above report is correct and true to the best of my knowledge and belief.

J. A. Patton, Adj. Asst., Surgeon.

**DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT
OF SICK AND WOUNDED.**

I. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.

II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are *not* to be entered in the tabular list. *All deaths*, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.

II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are not to be entered in the tabular list. All deaths, however, occurring during the month are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.

II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are not to be entered in the tabular list. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.

II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are not to be entered in the tabular list. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.

II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are not to be entered in the tabular list. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

Surgeon.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.

II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are not to be entered in the tabular list. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.

II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are not to be entered in the tabular list. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT
OF SICK AND WOUNDED.

1. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.

II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are *not* to be entered in the tabular list. *All deaths*, however, occurring during the month, *are to be entered* in the column of deaths, opposite the name of the disease causing death.

IV. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

SICK AND WOUNDED REFUGEES AND FREEDMEN.

Station Shreveport La
District of Louisiana
Month October, 1865.

FORWARDED BY

Thos J Reall
Act. Asst. Surgeon U. S.

in Charge of Freedmen's Hospital
at Shreveport La.

Here specify legibly the names of the Hospitals, Camps, Plantations, &c.; the statistics of which are included in the within Report.

Original forwarded to Chief Medical
Officer's War Dept. Nov. 25. 1865
Rec'd W.M. Office Dist of La
Nov. 25/65

REMARKS.

Among the 13 deaths recorded, 4 were introduced into the Hospital "in articulo mortis." The diseases among the Freedmen, encountered here are almost invariably those of having the asthenic type. A fact especially I suppose, by the exposure and self neglect precedent to or concomitant with their attack. In addition to the cases treated in Hospital, and of which this report is the record, there were treated during this month 400 cases outside of the Hospital, and others of whom there is no account has been taken, drew medicine from the Dispensary it being administered to them there.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.

II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are not to be entered in the tabular list. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.

II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are not to be entered in the tabular list. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.

II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are not to be entered in the tabular list. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.

II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are not to be entered in the tabular list. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.

II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are not to be entered in the tabular list. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.

II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are not to be entered in the tabular list. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT
OF SICK AND WOUNDED.

1. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.

II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are *not* to be entered in the tabular list. *All deaths*, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as child and.

Original forwarded to Surg
to St. Horn Oct. 10 '66.

REMARKS.

This report is made from the report of the Refugee Home ^{and other} and such other data as is attainable, ~~cor~~ and includes the operations of the "Korean Free Labn" prior to the organization of the Bureau of A. S. H. S. in this State, during the year 1865. It is impossible to make the report perfectly correct as no monthly reports were since & wounded refugees were over made in the year 1865, consequently no diagnoses can be given in the case.

The total number under charge of Bureau Dec. 31st 65, was as follows, Adults males, 7 Adults females 24, Males Children 10, Female Children 14, total 55.

The remainder had all been discharged or furnished transportation to their homes.

Consolidated Monthly Report of Sick and Wounded Refugees and Freedmen.

To be forwarded before the fifth of the month ensuing that referred to in the Report.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under Class V, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.	Consolidated REPORT		REMARKS.
	OF SICK AND WOUNDED REFUGEES AND FREEDMEN.		
I. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.	Station <i>New Orleans</i>		
II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.	District of <i>Louisiana</i>		
III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are not to be entered in the tabular list. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.	Month <i>January</i> , 1866		
IV. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."	FORWARDED BY <i>E. H. Harris</i> A. A. Surgeon U. S. A. in charge of Acting Surgeon Chief District of Louisiana		
V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children. DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.

II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are not to be entered in the tabular list. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

1. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.
2. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.
3. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are *not* to be entered in the tabular list. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.
4. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."
5. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

E. S. Keenan
Acting Surgeon-in-Chief

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.

II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are not to be entered in the tabular list. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.

II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are not to be entered in the tabular list. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

**DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT
OF SICK AND WOUNDED.**

I. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.

II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are *not* to be entered in the tabular list. *All deaths*, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.

II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are not to be entered in the tabular list. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

J. H. Hester
Surgeon, U. S. A.
Acting Surg-in-Chief

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

1. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.
2. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.
3. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are not to be entered in the tabular list. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.
4. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."
5. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.

II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are not to be entered in the tabular list. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "Remaining from last monthly report," and "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.

II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are not to be entered in the tabular list. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.

II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are not to be entered in the tabular list. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK & WOUNDED.

- I. Separate reports of Refugees and Freedmen will be made monthly to the Surgeon in Chief of the District, who will transmit them together with a consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.
- II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.
- III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into Hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.
- IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."
- V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.
- VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under Class V., (and the wound or injury has been received at the hands of another person) the precise nature of the affliction or the circumstances of the case, so reported, must be set forth in detail, in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK & WOUNDED.

I. Separate reports of Refugees and Freedmen will be made monthly to the Surgeon in Chief of the District, who will transmit them together with a consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into Hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under Class V., (and the wound or injury has been received at the hands of another person) the precise nature of the affection or the circumstances of the case, so reported, must be set forth in detail, in column headed "remarks," or in an accompanying letter of transmittal.

District of Louisiana

Month of June, 1866

FORWARDED BY

Surgeon U. S. Vols.,

Surgeon-in-Chief

Dist of Louisiana

Here specify legibly the names of the Hospitals, Camps, Plantations, &c: the statistics of which are included in the within Report.

Home Colony Hospital
Post Plantation
St Charles Parish
La

Original forwarded to War Dept

REMARKS.

The incised wound reported this month was of the face done by the man himself in cutting wood. The two claws reported last month were the same, and done in the same way.

The lacerated wound reported last month was the effect of a kick said to have been done by the orderly Coleman on the leg of a man penetrating to the bone.

The Cuneiform wound repairs last month was made by some pointed instrument up on the forehead of a woman, said to have been done by her husband.

The case of poisoning was that of a female child already reported.

I certify that this Report is correct and true to the best of my knowledge and belief.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK & WOUNDED.

- I. Separate reports of Refugees and Freedmen will be made monthly to the Surgeon in Chief of the District, who will transmit them together with a consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.
- II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.
- III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into Hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.
- IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The "total of discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."
- V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.
- VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under Class V., (and the wound or injury has been received at the hands of another person) the precise nature of the affection or the circumstances of the case, so reported, must be set forth in detail, in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made monthly, through the Surgeon-in-Chief of the District, to the Chief Medical Officer of the Bureau of Refugees, Freedmen, and Abandoned Lands, Washington, D. C.

II. In making out this report, the number of cases of each disease which have been under treatment during the month is to be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, those cases only are to be entered which have been taken on sick report or received into Hospital during the month represented by the Report. Cases remaining from previous months are not to be entered in the tabular list. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "Remaining from last monthly report," and the "Gain since last monthly report," equal the "Total under treatment during the month." The totals of "Discharged," "Transferred," and "Died," give the "Total loss during the month." The "Total loss during the month," and "Total remaining at date of this report," must equal, when added together, the "Total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK & WOUNDED.

- Separate reports of Refugees and Freedmen will be made monthly to the Surgeon in Chief of the District, who will transmit them together with a consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.
- In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.
- In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into Hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.
- The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."
- Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.
- Whenever cases are entered opposite any of the headings printed in italics, or reported under Class V., and the wound or injury has been received at the hands of another person, the precise nature of the action or the circumstances of the case, so reported, must be set forth in detail, in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAK- ING REPORT OF SICK & WOUNDED.

I. Separate reports of Refuges and Freedmen will be made monthly to the Surgeon in Chief of the District, who will transmit them together with a consolidated monthly report, on regular blanks, to the Chief Medical officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, however, are to be entered which have been taken on sick report or received into Hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be commemorated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in columns, or reported under Class V., and the wound or injury has been received at the hands of another person, the precise nature of the affection, or the circumstances of the case, so reported, must be set forth in detail, in columns headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK & WOUNDED.

- I. Separate reports of Refugees and Freedmen will be made monthly to the Surgeon in Chief of the District, who will transmit them together with a consolidated monthly report, on regular blanks, to the Chief Medical Officer at the Bureau.
- II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.
- III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into Hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.
- IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."
- V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.
- VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under Class V., and the wound or injury has been received at the hands of another person, the precise nature of the action or the circumstances of the case, so reported, must be set forth in detail, in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK & WOUNDED.

- Separate reports of Refugees and Freedmen will be made monthly to the Surgeon in Chief of the District, who will transmit them together with a consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.
- In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.
- In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into Hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.
- The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."
- Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.
- Whenever cases are entered opposite any of the headings printed in *Instructions*, or reported under *Class I*, and the wound or injury has been received at the hands of another person, the precise nature of the act, or the circumstances of the case, so reported, must be set forth in detail, in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK & WOUNDED.

- I. Separate reports of Refugees and Freedmen will be made monthly to the Surgeon in Chief of the District, who will transmit them together with a consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.
- II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.
- III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into Hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.
- IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."
- V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.
- VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under Class 1., (and the wound or injury has been received at the hands of another person) the precise nature of the affection or the circumstances of the case, so reported, must be set forth in detail, in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAK- ING REPORT OF SICK & WOUNDED.

- I. Separate reports of Refugees and Freedmen will be made monthly to the Surgeon in Chief of the District, who will transmit them together with a consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.
- II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.
- III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into Hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths opposite the name of the disease causing death.
- IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."
- V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.
- VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under Class V., and the wound or injury has been received at the hands of another person, the precise nature of the affliction or the circumstances of the case, so reported, must be set forth in detail, in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

- I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.
- II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.
- III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.
- IV. The “remaining from last monthly report,” and the “gain since last monthly report,” equal the “total under treatment during the month.” The totals of “discharged,” “transferred,” and “died,” give the “total loss during the month.” The “total loss during the month,” and “total remaining at date of this report,” must equal, when added together, the “total number under treatment during the month.”
- V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.
- VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under Class I, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed “remarks,” or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK & WOUNDED.

- Separate reports of Refugees and Freedmen will be made monthly to the Surgeon in Chief of the District, who will transmit them together with a consolidated monthly report, on regular blanks, to the Chief Medical Officer at the Bureau.
- In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.
- In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into Hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.
- The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."
- Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.
- Whenever cases are entered opposite any of the headings printed in italics, or reported under Class I., and the wound or injury has been received at the hands of another person, the precise nature of the affection or the circumstances of the case, so reported, must be set forth in detail, in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of *new cases*, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. *All deaths*, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in *tables*, or reported under *Class I*, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

Consolidated REPORT

OF

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The “remaining from last monthly report,” and the “gain since last monthly report,” equal the “total under treatment during the month.” The totals of “discharged,” “transferred,” and “died,” give the “total loss during the month.” The “total loss during the month,” and “total remaining at date of this report,” must equal, when added together, the “total number under treatment during the month.”

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under Class I, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed “remarks,” or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under (Class I, and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in *italic*, or reported under *Class F*, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

* VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under Class F, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under Class I, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under Class V, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of *new cases*, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. *All deaths*, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The “remaining from last monthly report,” and the “gain since last monthly report,” equal the “total under treatment during the month.” The totals of “discharged,” “transferred,” and “died,” give the “total loss during the month.” The “total loss during the month,” and “total remaining at date of this report,” must equal, when added together, the “total number under treatment during the month.”

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in *studies*, or reported under *Class I*, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed “remarks,” or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of *new cases*, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. *All deaths*, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in *italics*, or reported under *Class I*, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under (Class V.), and the wound or injury has been received at the hands of another person, the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in *italics*, or reported under *Class V*, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under Class V, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

- I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.
- II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.
- III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.
- IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."
- V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.
- VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under Class I, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of *new cases*, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. *All deaths*, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in *italics*, or reported under *Class I*, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

REPORT

OF

Sick and Wounded Refugees and Freedmen.

Station Parish of St. John Baptiste

District of Louisiana

Month December, 1866.

FORWARDED BY

Surgeon U. S. Vols.,

Surgeon-in-Chief District

of Louisiana

Here specify legibly the names of the Hospitals, Camps, Plantations, &c., the statistics of which are included in the within Report.

Parish of St. John Baptiste, La.

Original forwarded to War Dept Jan. 29/67

REMARKS.

The case of Confusion was produced by the man being thrown out of a wagon on the head. The injured wounds were caused by the individual themselves accidentally. The case of Homicide was an accident, caused by the man attempting to take a gun from another man playfully.

I certify that this Report is correct and true to the best of my knowledge and belief.

(Signed) W. Bishop

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of *new cases*, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. *All deaths*, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The “remaining from last monthly report,” and the “gain since last monthly report,” equal the “total under treatment during the month.” The totals of “discharged,” “transferred,” and “died,” give the “total loss during the month.” The “total loss during the month,” and “total remaining at date of this report,” must equal, when added together, the “total number under treatment during the month.”

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in *italic*, or reported under *Class I*, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed “remarks,” or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of *new cases*, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. *All deaths*, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in *Tables*, or reported under *Class V*, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The “remaining from last monthly report,” and the “gain since last monthly report,” equal the “total under treatment during the month.” The totals of “discharged,” “transferred,” and “died,” give the “total loss during the month.” The “total loss during the month,” and “total remaining at date of this report,” must equal, when added together, the “total number under treatment during the month.”

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under Class V, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed “remarks,” or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The “remaining from last monthly report,” and the “gain since last monthly report,” equal the “total under treatment during the month.” The totals of “discharged,” “transferred,” and “died,” give the “total loss during the month.” The “total loss during the month,” and “total remaining at date of this report,” must equal, when added together, the “total number under treatment during the month.”

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under Class I, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed “remarks,” or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under Class I, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

- I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.
- II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.
- III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of *new cases*, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. *All deaths*, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.
- IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."
- V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.
- VI. Whenever cases are entered opposite any of the headings printed in *italics*, or reported under *Class V*, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

REMARKS.

The case of Homicide they said, was an accident. The deceased Joseph St. Pierre was shot about one inch and a half to the left, and a little below the umbilicus. The ball lodged. I suppose in the vertebra. The pistol was in the hands of P. Orleans. Both Whites.

I certify that this Report is correct and true to the best of my knowledge and belief.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

- Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.
- In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.
- In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of *new cases*, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. *All deaths*, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.
- The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."
- Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.
- Whenever cases are entered opposite any of the headings printed in *stamps*, or reported under *Class I*, (and the wound or injury has been received at the hands of another person,) the precise nature of the affliction or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under Class I, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under Class I, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

NOTE I.—The nomenclature of this form will be strictly observed. Whenever cases are reported under headings specified in italics, an explanation of details will be made in the remarks on the third page; thus, if a certain number of simple fractures are specified, the remarks will set forth how many were of the humerus, how many of the femur, &c., If a certain number of skin diseases are reported, the remarks will set forth how many were eczema, how many impetigo, etc., etc. All violent and sudden deaths to be entered under the appropriate heads whether the individual has or has not been on the Sick Report.

NOTE II.—This average is to be obtained from the Morning Reports by adding together the numbers reported as "remaining" in Hospital and in quarters daily, and dividing each Total by the number of days in the month.

Discharges on Surgeon's Certificate and Deaths occurring among those of the command not on Sick Report, will also be reported, but separated from the others by a double line drawn across the page. Specify the manner in which the disease originated, when it is known. When a probable case for pension, state the degree of disability, as one third, one half, two thirds, or total.

REMARKS.

DIRECTIONS.—Here specify the details with regard to entries made opposite headings specified in italics, as required by the note on the first page. Beside which the following information will be given either on this sheet or in an accompanying letter of transmittal: An account of any surgical operations not included in the tabular statement; any details as to fractures, gun-shot wounds, amputations and excisions not given in the foregoing table. Also brief information on each of the following heads, when applicable: Fevers—Their character and symptoms; an outline of the plans of treatment found most efficient, with remarks on the location and sanitary condition of camps, or quarters during the prevalence of these disorders; Diarrhea and Dysentery—Grade and treatment, with remarks on the character of the ration, and the modes of cooking; Scouring diseases—Character and symptoms, with observations on causation, and a statement of the means employed to procure exemption; Respiratory diseases—Symptoms, severity and treatment, with remarks on the sheltering of the troops, and the atmospheric conditions. Similar remarks on other preventable diseases. Important cases of every kind should be reported in full. Where post mortem examinations have been made, accounts of the pathological results should be carefully prepared. See Circular No. 2, Surgeon General's Office, May 21, 1862.

REPORT

OF

SICK AND WOUNDED.

Shushone Camp & Hospital
Station Goodrich Ldga

Month March

FORWARDED BY

J. H. Thompson
A. H. St

Surgeon.

COMMAND.

Here specify legibly the name of the Regiment, and the letters of the Companies comprising the Command, with the Brigade, Division, and Army or Department in which it is serving.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

I.--TABULAR LIST OF DISEASES.

- I. In making out this report, the number of cases of each disease which may have occurred during the month is to be entered in ordinary numerals opposite the name of the disease. This entry will always be made in the column headed "All other Cases," except when patients are received by transfer from some general hospital in which their treatment has commenced, and in which it is to be presumed they have been already reported. In this case, the number of each disease so received by transfer will be entered in the column headed "Cases from other Hospitals."
- II. In making out the tabular list, those cases only are to be entered which have been taken sick or received into the hospital during the month represented by the report. Cases remaining from previous months ARE NOT to be entered in the tabular list. ALL deaths occurring during the month are, however, to be entered in the column of deaths, whether the patient was received during the current month or previously.
- III. Patients returning from furlough or desertion are not to be entered as new cases in the tabular list of diseases, but the number thus returned is to be entered in the summary under the head of "Returned from furlough or desertion."
- IV. The individual diseases specified in the tabular list are merely those which experience has proved to be most frequent. Cases of any other disease which may occur are to be entered under the head of "Other diseases," in the class and order to which they belong.
- V. Whenever cases are entered opposite any of the headings printed in italics, the precise nature of the affection so reported must be set forth in detail in the remarks on the third page of the report.

II.--GENERAL SUMMARY.

- I. In the General Summary the TOTAL under the head "Taken sick or wounded during the month," must agree with the total number of cases of all kinds entered in the "Tabular list of diseases;" this total added to the "Total remaining last report," and the number "Returned from furlough and desertion," produces the aggregate, and must of course equal it.
- II. The number entered in the summary, under "Died," must equal the number specified by name in the subsequent part of the report; excepting only in the case of those KILLED IN BATTLE, who are to be entered, when positively ascertained, in the list of deaths by name, but not in the tabular list or general summary.
- III. The number entered in the summary, under "Transferred to the Invalid Corps," must be equal to the number specified by name in the list of transfers, and the number entered as "Discharged" must equal the number entered in the list of discharges.
- IV. The sum of the numbers entered under the several heads, "Returned to duty," "Sent to general hospital," "Furloughed," "Transferred to Invalid Corps," "Discharged," "Deserted," and "Died," added to the total "Remaining," must equal the "Aggregate."
- V. The next division of the summary is intended to show the comparative amount of sickness among commissioned officers and enlisted men. Under this head only the number taken sick during the month is to be entered, and not the "Aggregate." The sum of the cases and deaths reported under these heads must equal the total number of cases and deaths in the tabular list.
- VI. The "mean strength of the command" is to be obtained as follows:—The strength present on each day of the month, obtained from the consolidated morning report of the command, is to be added together and divided by the number of days in the month. This is to be done for officers and enlisted men separately, and the two results added together for the total. The nearest whole numbers are to be used, and not fractions or decimals. The column headed "Mean strength of command" will not be filled up in case of general hospitals.
- VII. The average number on sick report, daily, will be obtained from the morning reports, by adding together in two separate columns the number remaining each day in hospital and in quarters, and dividing each total by the number of days in the month. This part of the summary is only intended for troops, and not for general hospitals.

III.--List of Soldiers transferred to the Invalid Corps, Discharged on Surgeon's Certificates, and Died.

- I. The greatest care and accuracy should be used in making out this list, as the pension of disabled soldiers, or of the families of the dead, often depends on the records thus furnished.

Station Goodrich Ldg Month March 1864
Freedmen's Int'l Bkpt No 2 Branch No 1

Cases remaining from last month are not to be entered, except in the Summary; but all deaths occurring during the month are to appear in the column of deaths.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of *new cases*, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. *All deaths*, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in *italics*, or reported under *Class V.* (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in column in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The “remaining from last monthly report,” and the “gain since last monthly report,” equal the “total under treatment during the month.” The totals of “discharged,” “transferred,” and “died,” give the “total loss during the month.” The “total loss during the month,” and “total remaining at date of this report,” must equal, when added together, the “total number under treatment during the month.”

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under Class V. (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed “remarks,” or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

- I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.
- II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.
- III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of *new cases*, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. *All deaths*, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.
- IV. The “remaining from last monthly report,” and the “gain since last monthly report,” equal the “total under treatment during the month.” The totals of “discharged,” “transferred,” and “died,” give the “total loss during the month.” The “total loss during the month,” and “total remaining at date of this report,” must equal, when added together, the “total number under treatment during the month.”
- V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.
- VI. Whenever cases are entered opposite any of the headings printed in *italics*, or reported under *Class F*, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed “remarks,” or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of *new cases*, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The “remaining from last monthly report,” and the “gain since last monthly report,” equal the “total under treatment during the month.” The totals of “discharged,” “transferred,” and “died,” give the “total loss during the month.” The “total loss during the month,” and “total remaining at date of this report,” must equal, when added together, the “total number under treatment during the month.”

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in *italic*, or reported under *Class V.* (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed “remarks,” or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of *new cases*, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. *All deaths*, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in *stamps*, or reported under *Class V*, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The “remaining from last monthly report,” and the “gain since last monthly report,” equal the “total under treatment during the month.” The totals of “discharged,” “transferred,” and “died,” give the “total loss during the month.” The “total loss during the month,” and “total remaining at date of this report,” must equal, when added together, the “total number under treatment during the month.”

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under Class V, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed “remarks,” or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading "new cases," those only are to be entered which have been taken on during the month or received into hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total remaining at date of this report," must, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be reported as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under Class V, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of *new cases*, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in *italics*, or reported under *Class V.*, and the wound or injury has been received at the hands of another person, the precise nature of the affliction or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of *new cases*, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. *All deaths*, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in *Notes*, or reported under *Class V*, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of *new cases*, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. *All deaths*, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in *italics*, or reported under *Class V*, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

REPORT
OF
SICK AND WOUNDED.

Station *Goodrich Ldg Co*

Month *May*

FORWARDED BY

J. H. Thompson

A. A. Surgeon.

COMMAND.

Frederick Gen Hospital

Here specify legibly the name of the Regiment, and the letters of the Companies comprising the Command, with the Brigade, Division, and Army or Department in which it is serving.

DIRECTIONS TO BE FOLLOWED IN MAKING THE REPORT OF SICK AND WOUNDED.

I.—TABULAR LIST OF DISEASES.

- I. In making out this report, the number of cases of each disease which may have occurred during the month is to be entered in ordinary numerals opposite the name of the disease. This entry will always be made in the column headed "All other Cases," except when patients are received by transfer from some general hospital in which their treatment has commenced, and in which it is to be presumed they have been already reported. In this case, the number of each disease so received by transfer will be entered in the column headed "Cases from other Hospitals."
- II. In making out the tabular list, those cases only are to be entered which have been taken sick or received into the hospital during the month represented by the report. Cases remaining from previous months ARE NOT to be entered in the tabular list. ALL deaths occurring during the month are, however, to be entered in the column of deaths, whether the patient was received during the current month or previously.
- III. Patients returning from furlough or desertion are not to be entered as new cases in the tabular list of diseases, but the number thus returned is to be entered in the summary under the head of "Returned from furlough or desertion."
- IV. The individual diseases specified in the tabular list are merely those which experience has proved to be most frequent. Cases of any other disease which may occur are to be entered under the head of "Other diseases," in the class and order to which they belong.
- V. Whenever cases are entered opposite any of the headings printed in italics, the precise nature of the affection so reported must be set forth in detail in the remarks on the third page of the report.

II.—GENERAL SUMMARY.

- I. In the General Summary the total under the head "Taken sick or wounded during the month," must agree with the total number of cases of all kinds entered in the "Tabular list of diseases;" this total added to the "Total remaining last report," and the number "Returned from furlough and desertion," produces the aggregate, and must of course equal it.
- II. The number entered in the summary, under "Died," must equal the number specified by name in the subsequent part of the report; excepting only in the case of those KILLED IN BATTLE, who are to be entered, when positively ascertained, in the list of deaths by name, but not in the tabular list or general summary.
- III. The number entered in the summary, under "Transferred to the Invalid Corps," must be equal to the number specified by name in the list of transfers, and the number entered as "Discharged" must equal the number entered in the list of discharges.
- IV. The sum of the numbers entered under the several heads, "Returned to duty," "Sent to general hospital," "Furloughed," "Transferred to Invalid Corps," "Discharged," "Deserted," and "Died," added to the total "Remaining," must equal the "Aggregate."
- V. The next division of the summary is intended to show the comparative amount of sickness among commissioned officers and enlisted men. Under this head only the number taken sick during the month is to be entered, and not the "Aggregate." The sum of the cases and deaths reported under these heads must equal the total number of cases and deaths in the tabular list.
- VI. The "mean strength of the command" is to be obtained as follows:—The strength present on each day of the month, obtained from the consolidated morning report of the command, is to be added together and divided by the number of days in the month. This is to be done for officers and enlisted men separately, and the two results added together for the total. The nearest whole numbers are to be used, and not fractions or decimals. The column headed "Mean strength of command" will not be filled up in case of general hospitals.
- VII. The average number on sick report, daily, will be obtained from the morning reports, by adding together in two separate columns the number remaining each day in hospital and in quarters, and dividing each total by the number of days in the month. This part of the summary is only intended for troops, and not for general hospitals.

III.—List of Soldiers transferred to the Invalid Corps, Discharged on Surgeon's Certificates, and Died.

- I. The greatest care and accuracy should be used in making out this list, as the pension of disabled soldiers, or of the families of the dead, often depends on the records thus furnished.

[SEE DIRECTIONS ON THE FOURTH PAGE.]

REMARKS

Directions.—Here specify the details with regard to entries made, opposite headings specified in italics, as required in the Directions on the last page. Besides which, information on the following heads will be given either on this sheet or in an accompanying letter of transmittal. *Fever*.—Their character and symptoms; also the nature of the plans of treatment found most efficient, with remarks on the location, and sanitary condition of camps or quarters during the prevalence of these disorders. *Dysentery*.—Character and symptoms; also the nature of the plans of treatment found most efficient, with remarks on the character of the ration, and the modes of cooking. *Scorbutic Diseases*.—Character and symptoms, with observations on the nature of the ration, and the modes of cooking. *Respiratory Diseases*.—Symptoms, severity, and treatment, with remarks on the sheltering of the troops, and the sanitary condition. Similar remarks on other prevalent diseases. Important cases of every kind should be reported in full. Where post-mortem examinations have been made, a statement of the pathological results should be carefully prepared.

I certify that the above report is correct and true to the best of my knowledge and belief.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.																		
I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.																		
II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.																		
III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of new cases, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.																		
IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."																		
V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.																		
VI. Whenever cases are entered opposite any of the headings printed in italics, or reported under Class V, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.																		
		I certify that this Report is correct and true to the best of my knowledge and belief.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

1. *Separate reports of Refugees and of Freedmen will be made, monthly, to Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of Bureau.*

II. In making out the tabular list, cases remaining from previous months to be entered in first column. Under the heading of *new cases*, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. *All deaths*, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

III. The "remaining from last monthly report," and the "gain since monthly report," equal the "total under treatment during the month." Totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at the end of this report," must equal, when added together, the "total number under treatment during the month."

IV. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

Y. Whenever cases are entered opposite any of the headings printed in *titles* or reported under *Class V.* (and the wound or injury has been received at *hands of another person*.) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks" or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of *new cases*, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. All deaths, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The "remaining from last monthly report," and the "gain since last monthly report," equal the "total under treatment during the month." The totals of "discharged," "transferred," and "died," give the "total loss during the month." The "total loss during the month," and "total remaining at date of this report," must equal, when added together, the "total number under treatment during the month."

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in *italics*, or reported under *Class V.* (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed "remarks," or in an accompanying letter of transmittal.

DIRECTIONS TO BE FOLLOWED IN MAKING REPORT OF SICK AND WOUNDED.

I. Separate reports of Refugees and Freedmen will be made, monthly, to the Surgeon-in-Chief of the District, who will transmit them, together with the consolidated monthly report, on regular blanks, to the Chief Medical Officer of the Bureau.

II. In making out this report, the number of cases of each disease which have been under treatment during the month should be entered in ordinary numerals in the appropriate column opposite the name of the disease.

III. In making out the tabular list, cases remaining from previous months are to be entered in first column. Under the heading of *new cases*, those only are to be entered which have been taken on sick report or received into hospital during the month represented by the report. *All deaths*, however, occurring during the month, are to be entered in the column of deaths, opposite the name of the disease causing death.

IV. The “remaining from last monthly report,” and the “gain since last monthly report,” equal the “total under treatment during the month.” The totals of “discharged,” “transferred,” and “died,” give the “total loss during the month.” The “total loss during the month,” and “total remaining at date of this report,” must equal, when added together, the “total number under treatment during the month.”

V. Patients above and including the age of fourteen will be enumerated as adults; below that age, as children.

VI. Whenever cases are entered opposite any of the headings printed in *italics*, or reported under *Class V*, (and the wound or injury has been received at the hands of another person,) the precise nature of the affection or the circumstances of the case so reported must be set forth in detail in column headed “remarks,” or in an accompanying letter of transmittal.
